

CAMDEN TOWNSHIP DUST CONTROL POLICY 2013

Camden Township will provide dust control to roads in the township limits which receive new gravel. Also, dust control will be applied to the roads that received new gravel the year prior. So, each newly graveled road will receive dust control for two years.

If residents receive dust control to their road, provided by the Township, due to new gravel, and have already sent in payment, their check will be returned to them.
